

ROBOTICS INTEGRATION

APPLICATIONS

- Palettisation
- Loading / unloading machinery (manufacturing stations, press units, bending units, tyre mounting...)
- Manufacturing process, fettling

PRESTATIONS

- Definition of the robot and its gripper
- Functional Analysis
- Electrical integration with machine/process communication
- Programming
- Installation, starting up
- Training
- After sale service

SECTORS

- Automobile
- Aeronautics
- Steel industry
- Packaging

INTEGRATED ROBOTS

- KUKA
- FANUC
- MOTOMAN
- ABB
- STRAUBLI

EXAMPLE OF CARRIED OUT ARCHITECTURE
WHEEL ASSEMBLY UNIT
